First name: John
Last name: Davis
Organization: The Rewilding Institute
Title: Executive Director
Comments: On behalf of The Rewilding Institute, a Continental conservation group whose focal areas include the proposed Atlantic/Appalachian/Adirondack/Acadian Wildway, i urge you to cancel logging plans for Telephone Gap and protect the area as old forest habitat. We also urge the US Forest Service to phase out all commercial logging of our National Forest. America's public wildlands should all be fully protected as wildlife habitat and climate stabilization zones.

Respectfully
John Davis
