Comments: I implore you to revise the current logging plan for telephone Gap. Please do not add any extra cutting beyond what has already been in place. The area proposed to be additionally cut contains a lot of larger trees. It is unwise at this point to disturb the existing ecosystem by cutting them down. It also goes against President Biden's orders for the forest service of protecting our forest and keeping cutting to a minimum. I have spent a lot of time hiking in the Green Mountain National Forest over the past 25 years . I want to see the area preserved the way it is and not used for commercial gain. After all it is our public land. Thank you for your consideration
