Comments: This concerns all of us,

92 % of precious gasses from mature and "old " trees assist humans and all beings to have a quality of life and breathing.

This action in the Gap destruction is against the law.. the law of humanity.

I live in VT because of the woods, the trees. I chose to live here from the Baltimore/ Wash DC area because of the air quality.

Know that VT is a precious state because of our woodlands. Think of your children. Your grandchildren. What do you want for them?

Thank you for reading (hopefully)
