Comments: The Telephone Gap is a most terrible plan- cutting down 11,800 acres of irreplaceable 160 year old trees - for WHAT??

- water pollution, loss of habitat for 100s of animals, death of animals and trees.

Are we not working hard to save trees to save the earth from carbon pollution? Old trees like these are the Best at sequestering carbon.

Are you so out of touch that you don't know that? Or maybe you just don't care.....

Are you a Forest Service that doesn't care about trees?

Do you live in 1955?

THIS IS a TERRIBLE Plan,
