Title:

Comments: Dear Ranger Matrick:

I applaud you and your staff for the excellent well rounded multidisciplinary proposal for the TGIRP. Specifically I support:

1. The new trails that expand and connect the Velomont. They will be an integral piece for the success of the state-long trail.
2. The proposed hut in partnership with several conservation groups will be a great addition and add one more link to a state-wide hit system.
3. The regeneration harvest will add much needed habitat diversity to this large area of maturing forest.

Thank you for your dedication to the resource and I applaud the grace with which you've endured the miss information campaign that is Standing Trees Vermont.

Regards

Dan McKinley
