Comments: I hope you will pay attention to all of these comments opposing the Telephone Gap timber logging and sales, which is clearly a flawed plan. I have lived in Vermont for almost 50 years and treasure our forests and wildlands. The forest is so much more than a commodity and in this time the thought that the US Forest Service would plan to cut almost 12,000 acres of the Green Mountain Forest seems so out of touch with the knowledge, science and crisis of our times.

Please, someone, take a breath and pause, and stop this disastrous plan.

Respectfully, Dorian Yates
