First name: Claire

Last name: North

Organization:

Title:

Comments: How is it that the more urgent our climate crisis becomes, the more desecrating, damaging projects like these try to squeak through, in the manner of "OH, just ONE more SMALL one can't hurt that much?" These of us commenting and adding our names to this are saying "ENOUGH!" And when Mother will say "ENOUGH!" mark my words -- it won't be gentle. We're already feeling Her power, Her majesty, and how infinitely small we are in the ecosystem. It is one of the greatest human myths, that we control Nature.

Reverend Claire Longtin North, MSS, MFA
