Title:

Comments: I'm not in favor of logging the Telephone Gap area of the Green Mountain National Forest. The intact forest helps keep carbon out of the atmosphere and runoff out of Lake Champlain. I believe forests have intrinsic value to all of us. I happen to love hiking and birding in quiet areas, but even if I didn't use forest land, I think it has enormous benefits for habitats of endangered animals (especially bats).

I appreciate your attention.

All the best,

Alice Christian
