First name: Peggy

Last name: Beck

Organization:

Title:

Comments: Do not allow clear cuts.

Do not use pesticides or insecticides.

Do not cut old-growth trees.

Allow 2nd and 3rd growth forests to continue to grow and diversify on their own.

Protect all mosses from harm and displacement.

No machinery in the forest.

No logging in the areas proposed for Wilderness designation.

Think about all the new research on root systems and interconnectedness, study it, and revise your thinking about logging.

Consider who you are going to be paying for logging: which politicians did they contribute to?

Thank you
