Title:

Comments: Being right along the spine of the Green Mountains, the Long Trail and the Appalachian Trail run through Telephone Gap, and it is an area beloved by many. Telephone Gap is on public lands, and logging it is not in the best interest of the public. Special places like this need to be preserved for the interests of both current and future generations. There are plenty of other areas outside the spine of the Green Mountains where logging projects would have much less of an impact. A line needs to be drawn and places like Telephone Gap need to be preserved.
