Comments: Mature and old-growth forests excel at removing and storing carbon from the atmosphere. And yet, 92% of the areas proposed for logging in the Telephone Gap timber sale are classified as mature or old by the Green Mountain National Forest, violating President Biden's historic Executive Order from Earth Day 2022, which directed the US Forest Service to protect these forests for the benefit of the climate and biodiversity.

If the above came from an Executive Order isn't this in violation of the law?

PLEASE PROTECT OUR TREES!

Thank you, veronica shaffer
