Comments: Please Avoid Clearcutting and Road Construction at River Complex

Dear Daniel Fenstermacher,

About post-fire logging plans for the Taylor Creek area in the River Complex fire salvage proposal: Many of the proposed logging units are located on steep slopes in a Late Successional Reserve in which clearcutting, road construction and conifer plantation establishment are inappropriate.

Everything you do has consequences to the entire planet.

The Taylor Creek Late Successional Reserve is an inappropriate place for post-fire clearcut logging, new logging road construction, machine slash piling, and conifer plantation establishment.

Sincerely,

alden moffatt

6400 Highway 66 Ashland, OR 97520-8756
