Comments: Please Avoid Clearcutting and Road Construction at River Complex

Dear Daniel Fenstermacher,

I have done a lot of hiking and backpacking in the area where you are proposing so-called "salvage logging" in the Taylor Creek area in the wake of the River Complex fire.

I am very concerned about the pattern of fire being used as an excuse for clearcutting and road construction.

What makes more sense is to make sure existing roads and homes are protected.

Thank you,

Sincerely,

Matt Witt
