Comments: I do not think they need to take away the water from the people just for skiing. The water is needed for our community to live on. Not just to play on.. we do not want to become another ski area like Colorado they have run the local people out of there homes so only the rich can afford to live there. Mandatories had been placed years ago due to the water table not being able to support a much larger population, what happened with that reality .. Taosanos had the right idea in that time, we cared until the new comers are showing up thinking about money not our homes. It was more then fine before Bacon came to Taos.. I say no more from this man.
