Comments: I see a failure of the current proposal to address recent encounters that locals have been having when a TSV employees tells non-TSV users that they cannot park in the NFS Williams Lake parking lot without paying a fee. I was told I could not park there to do NON-TSV backcountry skiing unless I paid \$50 dollars.

Unacceptable!

I am not the only person this has happened to, please see TaosBC instagram for a thread with comments from more locals that have experienced similar.

Many people will likely benefit from having TSV introduce them to the wonders of nature; for those of us that have been using the PUBLIC parking lots for non-TSV activities we don't need TSV to introduce the lands to us and be charging us.

Yes, I do ski at TSV and feel I cannot put my full contact information for fear of having my pass revoked (like Emily Sadow did, just saying)
