Comments: Re: Gondola

For the past 32 years I have practiced medicine at the Taos Ski Valley Mogul Medical Clinic. Getting around in the winter when there is snow is easy. EMS Response & Transport are delayed in the summer months due to the variable and uneven terrain.

The Gondola will enhance patient safety by getting patients down to the base area with our summer ski patrol to the clinic more quickly due to time savings of the gondola.

This is not political. It is practical.
