Title:

Comments: My family owns property in Alpine and I am opposing this proposal. It will bring added danger to our property as we already see problems with people who do not pay attention to the rules. Campers consistently park and camp near or on our property and leave behind trash and fire sites. We have posted no trespassing signs and the county has posted no camping/fire signs which are consistently ignored. We find ourselves patrolling the area on our own when in residence. In addition, the narrow roads are not conducive to additional traffic and parking. My three main points of opposition for allowing the proposed changes in camping in Chaffee County along CR 162/ Chalk Creek are:

- Fire danger and damage to our property
- Emergency access to our community and evacuation if necessary
- Limited resources for patrolling and enforcing the law from an already taxed system

Thank you for considering my opposition. The concerns of our community are valid as we are the ones who see the current problems first-hand. The proposed changes will greatly affect us.
