Comments: On a recent visit to Taos (stayed in Taos proper, skied at Taos Ski Valley), my gf and I considered taking the bus from Taos to go skiing. There was a bus stop right outside our lodging, and it appeared the bus was free. However, the website was very confusing, and seemed to contradict the schedule at the bus stop (couldn't figure out if there was 1 or 2 bus trips going to the resort in the AM), so we drove.

I support all of these improvements at Taos Ski Valley (faster lifts would be great, and so would having a nordic area close to Taos), but would like to see the bus service between Taos and Taos Ski Valley improved as a condition of improving amenities at the resort itself.

Also, wondering why there are no singles lines at Taos and why the Kachina lift lift is on the side of the slope as opposed to the flat cat track leading to the lift. Current situation for that lift is a mess.

Thank you!
