Comments: I fully support Taos Ski Valley's development plans. Increasing capacity and speed for lift 4 as well as adding a gondola to Kachina basin will be very good for beginner and intermediate skiers. Lift 4 is much safer than lift 1 for beginners and intermediates. Replacing lift 2 will be great for all skiers. Further, the gondola will limit vehicle traffic going to Kachina Basin which is a positive. Taos Ski Valley has proven to be a great steward of land and I have no doubt they will do a great job for the environment and community.
