Comments: I support 100% the Back Country Horsemen of Washington's (BCHW) views. Keep all the trails open to horses, provide adequate trailheads for truck and trailer rigs and post proper right of way so all trail users are aware. BCHW provides at no cost trail maintenance, tree clearing, trimming of over hanging branches, blackberries, etc. and we repair trails that have been damaged. Our equine haul timbers and materials for various volunteer groups to also make repairs, build bridges, protect wetlands with ground bridges, etc. Equine are vital to maintaining our trail systems and as such should be allowed on all trails.
