Comments: Deciding Official,
I A.M. writing to strongly object to F3 Exploratory drilling near Custer. This project location is wrong on so many levels. I. Short the impact to NFS roads, private property and all that entails along with potential air quality impacts should mining occur if gold is found during the exploration process. In short I urge you to do the right thing and stop this nonsense. I am a long time reside of Custer and sincerely hope you listen to the local citizens who call Custer home.
