Title:

Comments: Good morning,

I wanted to alert the system administrators of an error in date/time tagging comments that have been submitted today. The comments from me, Carmen Ortiz, and Sally Paez have 3/28 ~3PM time tags but were submitted mid morning. I have not checked any previous comment date/time stamps for consistency.

I hope accurate time stamps can be ascribed to all the comments. This is important for correctly parsing the comment content in historical order.

Thank you,

Daniel Weeks

Taos, NM
