Comments: I would like to comment on the trail building specifically in cement creek, but also across the northern Gunnison valley. I am an avid mountain biker, dirt biker and outdoor enthusiast in the Gunnison valley. That being said I do not think we need more trails. Our valleys are already covered with them, and some of the proposed new trails run right through prime elk and deer hunting habitat, I know this because I have hunted these areas for years. I would much prefer seeing the hours and money spent on trail maintenance or restoration. I do not think we should be building more trails to cover our amazing valleys with a wider spread of people. Our valleys are already chock full of trails and busy enough with people as it is.
