Comments: A variety of skills training areas would be incredibly beneficial for younger and new members of the motorcycle community. My son is just getting started in riding and being able to coach him up off the official trails will make it easier for him to learn and less frustrating for other riders who might come across us on the trail while he's struggling with certain sections.

The Enduro training area will do the same for more advanced riders who are looking to hone their skills, and both areas will keep the trails more open & free flowing, reduce damage to the trails and make riders less likely to injure themselves in the Backcountry.
