Comments: I would like to continue my objection to the proposed logging project in the area surrounding Lake Tarleton. I have been sending my sons to camp on the lake for 6 years now and the area is very meaningful to my family. More importantly it is meaningful to the hundreds of children and young adults that attend camp there every year. This land must be re-classified as MA 8.5 (scenic area) as that is truly what it is. I appreciate the Forest Service's revisions to the original plan, however I remain concerned about the scope of the project and its impact on this pristine area that is so meaningful to SO many people. Please consider reclassifying this land. Sincerely, The Hochschild Family
