First name: Michael
Last name: Hays
Organization:
Title:
Comments: I am a USN veteran. When I served my government poisoned the water us veterans were drinking on active duty. If you allow me to be poisoned again by my government now that I am in retirement you simply have finished what the Department of Defense started. You will have murdered me even though I once served mycountry.
I drink water here in Rapid City along with my wife and grown children and the families who call Rapid city their home.
