First name: Kathy

Last name: Bowman

Organization: Private

Title:

Comments: I sent a longer letter asking that this project focus on the benefits of restoration oriented toward climate change, and asking that the Forest Service focus on public engagement, especially with conservation groups and tribes.

My letter is not in the reading room. Is this because I expressed concern about inaccurate responses to previous project comments, and my hope that it would not happen again?

As my letter has not been posted, do I need to contact the Regional Office to address this?
