Title:

Comments: I have hiked the proposed area for the Trails at Mena many times and would consider myself very familiar with the area (at least the current trail system). Also, I do some causal mountain biking. I wholeheartedly support the development of the trails, not only for my own recreational benefit, but for the whole region. This will provide a great economic impact to our community as well as providing wonderful outdoor recreational opportunities for the whole region. I also think this will help many locals with physical fitness. We travel often to Colorado and northwest Arkansas (where there is an extensive set of trails). It seems in general, that those people are more outdoorsy and in better physical shape.
