Comments: Hello,

I would like to comment in support of this project, as I believe it will give a better recreational opportunity, and create a safer OHV experience overall. Giving new and experienced riders a place to practice skills off the major trails will help keep riding safer, give them a better skill set, and lessen trail impacts from off-trail ride-arounds, parking lot stunts, etc as it will allow riders a place to practice their motorcycle skills. This encourages safer travel on the OHV routes, as people will be less inclined to practice skills while out on the real trails, and when they are on these trails, will have a better overall skill set.

Thanks for all you do
