Title:

Comments: I am a lifelong resident of the community and work in a leadership role for the school district. In this role, I am aware of the declining population and increasing low income of our community. These are issues that must be addressed and adding to the economic growth and development of the community is the only way to do that. This project will support our community for years to come and has the potential to allow for growth and development in other areas as well. With any change comes fear of losing your way of life, and I have heard that from several in the area. However, with the opportunity for input and the way that the department has completed the other projects, I see this as only a life giving opportunity for our area.
