First name: James

Last name: Turner

Organization: 71953

Title:

Comments: I believe that this project will provide for low impact high value recreational opportunities for people traveling to Western Arkansas and Mena in particular. The economic impact to Mena, Polk County, and Western Arkansas will provide jobs and bring unbelievable monetary benefits to the local economy. Mena currently has no interstate serving our area and has no navigable river, so we miss a lot of chances for other industry to locate here. These trails will open up many opportunities for new entrepreneurs to serve the biking industry as well as new lodging facilities and additional restaurants.
