Comments: Me and my family are so excited for the bike trails to come to Mena. As a lifelong resident, I have seen more growth and opportunities for our community in the last few years thanks to our growth in recreational opportunities. We have always had the beautiful mountains surrounding us but not realized how truly special the place we live is. I am excited to share our community with the world and see more people getting outside and stepping away from screens and the pits of social media. The economic impact is obviously a positive as well. Great job to the numerous people that have worked endless hours to see that this project is continued. Thank you for supporting rural Arkansas and the citizens of Polk County!
