Comments: I am writing as an outdoor enthusiast and a passionate mountain biker to express my full support for the Trails at Mena Project in the Ouachita National Forest. The proposed trail system, within an hour's drive from my home, will provide incredible outdoor opportunities for my family and me.

The project promises a unique gravity-oriented trail experience in Arkansas, with up to 100 miles of natural surface trails, uplift infrastructure, and guest services. I believe the Trails at Mena Project will benefit not only my family but also the local community and visitors from all over.

I appreciate the chance to participate in the public scoping process and encourage the US Forest Service to move forward with the Trails at Mena Project. I look forward to exploring the new trail system with my family and creating lasting memories together.

Thank you for considering my comments and support for this fantastic initiative.
