Data Submitted (UTC 11): 4/10/2023 7:23:26 PM
First name: Echo
Last name: Tiger
Organization: NDN Collective
Title:
Comments: - We are OPPOSED to the project and asking the US Forest Service to decide against going forward with the project.
- Violation of Ft. Laramie Treaty of 1868
- Will contaminate French Creek, which supplies water downstream as far south as Pine Ridge
- Total lack of proper consultation with any Tribes
- Will destroy tribal cultural resources that still need to be surveyed
- Categorical Exclusion for the Newark project is invalid, as Jenny Gulch and Newark projects are NOT "identical"
- Damages the tourism-dependent South Dakota economy, permanently (24/7 noise, lights, and pollution from drilling ops for the duration of any project)
