Comments: I fully support the Trails at Mena project. The completion of these trails would bring substantial economic benefits and improved quality of life for residents of Mena and surrounding areas. Visitors would travel from Dallas/Fort Worth, Oklahoma City, and many other places to experience the beauty and uniqueness of the Ouachita Mountains in Western Arkansas. Additionally, the proposed lifts in this plan will make the Mena trail system a destination for cyclists and outdoor enthusiasts from all over the country. Western Arkansas would be home to a unique outdoor recreation opportunity that would benefit many people.

Thank you for prioritizing this project to complete the trails with lift access. It is a worthwhile investment in the future of Western Arkansas.
