Last name: LaBrune

Organization:

Title:

Comments: As a native South Dakotan and frequent visitor to my in-laws' retirement home in the Black Hills National Forest near Custer (adjacent to this proposal), I am strongly opposed to this project and any further exploration in the region. It is my educated belief that the environmental impacts (wildlife, safety, water fidelity, vegetation) and infrastructural impacts are untenable and pose clear and present jeopardy to one of the few pure places left in the state. I would like to see this project cease and desist all planning and activity.
