Comments: I am recreational mountain biker from the Dallas area. I take bike trips regularly with family and friends. I have been to majority of mtb trails across AR many city's large and small. Mena was the only area I've stayed in that the mts were amazing but trails were significantly lacking attention and development. Tons of potential with this project for tourism and a perfect location and city for it. I'd come up to spend money on hotels, restaurants, and lift tickets.

There is not better way to enjoy the trails. Access is key and chair lifts makes it a real deal destination that will definitely be sought out.

Thank you for you efforts and consideration of this amazing proposal.
