First name: Scott
Last name: Eastman
Organization:
Title:
Comments: We moved to Custer Dec 2020. We're within a mile of the this mining is going down. We are very concerned with the lack of Environmental Impact Statement, because our home and business is on well water, we're very concerned about the water. We own two businesses: K and S Stagecoach Stop, we got three rv pads. And my wife's business 605 Alterations.

Our home is right in the midst of all that crap, to do this type of project without any public input. I want voice our concern. We must have as the bare minimum a full Environmental Impact Statement.

Scott and Kelly Eastman.
