Comments: Thank you for the opportunity to comment on the trails at Mena. This area has needed a draw like this for a long time. Mena has many struggling businesses but seems to be heading in the right direction with people moving into the area. The amount of revenue we could see from adding the bike trails would be life changing for the community here. Yes we have an influx of people every week to ride the wolf pen trails, but for the most part those people camp and do not spend money with hardly any of the businesses in town. Adding mountain bike trails will greatly increase the amount of foot traffic for most of the businesses here in our town. It's something that would greatly benefit the area and I am very much in favor of.

Thank you!
