Comments: Dear Land Management Team.....A few comments with the aging athletes in mind.

1. A decision on WSA's is needed, either it is wilderness or not...the study has been for years. I for one would like to see the areas open to at least snowmobiling, and non-throttle ebikes.

2. In general I think trails and roads should be open to non-throttle ebikes, this is a great way for the aging population to enjoy the outdoors....the Rattlesnake corridor to the wilderness should be one area open to non-throttle ebikes.

Regards,
