Comments: Diligently PROTECT our Natural National Treasures of Nature! They cannot be replaced, and their Healing BEAUTY belongs to ALL Americans! My parents took my sister (at age 4) and I (at age 6) on a 2-month road trip to many National Parks, and this had a deep impact on me. NATURE is still my favorite place to be. It is where I feel at HOME. PLEASE PROTECT ALL of our National Parks. Keep them safe, pristine, and natural!
