First name: Martha

Last name: Nixon

Organization:

Title:

Comments: I am opposed to Project 63649 Trails at Mena because this area is an important wildlife corridor that needs to be protected. I request that all development be postponed until after the required environmental impact studies have been completed, so as to minimize disruption to wildlife. I further request that the Ouachita Trail and the hiking-only trails at Queen Wilhelmina remain as hiking-only.
