Comments: Writing this in regards to the Dutch Fred Skills Training Area. This is a great project in Rampart Range to help allow opportunities to enjoy dirt bike skill development and recreation. It will allow riders to gain experience and training in a defined area for familiarity and knowledge about obstacles. Using natural terrain in addition to created obstacles will allow safer as well as quicker development of riding technique and skill. Within the dirt biking and woods riding disciplines this training area will be a great and fun resource and encourage recreation within the forest. This is a great worthwhile project!

Thanks for your consideration,

Eddie Gray
