Comments: "Better not Bigger", how stupid do you think we are? More construction obviously means bigger! Blatant lies are how TSV conducts business. It's so clear that TSV does not care about the greater Taos community. TSV's beloved mountain is in the heart of a majority of locals and TSV is destroying it with disregard to the people who grew up on it and truly respect it! ANY type of construction will damage our mountains precious ecosystem and deplete water...common sense right?! Previous construction conducted by TSV has already changed the original layout of our precious mountain side. THEY PHYSICALLY MOVED AND RECHANNELED OUR PRECIOUS RIVER! Then, planted nonnative species all along the riparian areas. They built an entire community directly over the river, still claiming it's perfectly safe for our sacred mountain and our life giving rivers. These projects are completed the damage has a been done! No more please!
