Comments: I love the idea of this project. Arkansas is becoming well known for its welcoming mountain biking community. One thing that we lack are great downhill trails, and this would really help. QW State Park would benefit greatly from this amenity. I think the project would not impact the hiking community at all once it is finished. More visitors helps all of our parks, and gives families yet another reason to visit. It's wonderful that our leadership is thinking about ways to diversify our offerings. This would be a huge win for QWSP as well as the Mena community. I can't wait to visit!
