Title:

Comments: I want to voice my opposition to the proposal for infrastructures and trails in the Ouachita mountains north of Mena. This development will have a negative impact on the flora and fauna of this area. the rare and endangered plants, and the animals that depend on them, are at risk of endangerment and extinction. I am speaking from the perspective of a citizen of Arkansas who is proud to live in "The Natural State." Let's keep our state natural and values our unique plants and animals.
