Title:

Comments: We have 52 state parks in Arkansas. Hundreds of Forest Service roads and trails in the national forests. Why on earth would we want to build roads and trails for motorized vehicles, poachers, collectors, and vandals in some of the rarest botanical habitat in America? Where will the bears go? There are rare orchid species on those formerly hidden streambanks. When visitors dig them up, because now they have unfettered access, what will replace them? Let our wilds stay wild. Leave no trace. Forget this project.
