Comments: Hello,

I am contacting you today to show my support for Greens Creek Mine tailings expansion plan. They deserve the expansion for a few reasons.

They have an excellent environmental and stewardship record with a large portion of their personnel who enjoy the local resources and activities the company has develop an environmentally conscious employees who show the true meaning of conservation. With these strict company policies, historic records, and morality the likely hood of an incident is practically nonexistent.

A second reason Alternative D provides for an expansion of the existing TDF that builds on the existing successful facility, minimizes new monument disturbance outside the existing lease boundary, and avoids direct disturbance to sensitive habitats and environmental resource.

A third reason is that the company is a large part of the local economy to Southeast Alaska. With an exceedingly large pay role that offers high paying jobs to locals where outside this industry the opportunity to make 6 figures while working, and living locally is nonexistent. The employees who are not from this area still spend money at our hotels, shops, restaurants, etc.

Thank you for your time,

Dominick Phillips
