Comments: I enthusiastically support this project. There are many dead trees up in the Lake Alpine Area, especially around the public road to the recreational cabins. They are a hazard, especially if they block the exits for cabin owners during an emergency. While cabin owners have been removing dead trees on their own properties, there are still many along the exit routes that are on public land. Also, the forest road behind some of the cabins, which would be used by firefighters is littered with dead trees that have been there for years. That area is a ticking time bomb of combustible material that is very close to the cabins and to the camping areas and Lodge.
