Comments: Forest Service,

Yes we got your letter and yes there are a lot of trees that should be cut. Too large if bekown over hit our cabins and the ground is soft and not at base of trees may of these.

And when the cut the trees back of our cabins they left a big mess.

I wrote to you about this before. Instead of cleaning up a lot of the trees the ran over them with the large cat to cover them but didn't work.

We have two cabins in Long Barn, CA. There are a lot of trees that should come down or they will fall on our cabin.

Please mail any information.
